“ eaa ” + “ exposed ”

In 2011, EMU 's administration secretly signed an interlocal agreement with Gov.Snyder to create the Education Achievement Authority, without the consent of faculty in the College of Education.

The EAA, through models of top down for-profit privatization, has taken power away from the Detroit schools and community, thus harming the people of Detroit and the strong reputation of future educators graduating from EMU.

EMU

EAA

WILL EMU CUT IN DECEMBER?

A Plea to Support Public Education

The appointed Regents of Eastern Michigan University and Governor Snyder bartered EMU's legacy as a champion of public education AND as leader in the preparation of educators in creating the EAA. Given the fact that this inter-local agreement has inflicted harm on students and educators (within the EAA and at EMU), the citizens of Michigan are concerned about the misdeeds of these Regents as stewards of a state university. As such, the EMU community (students, faculty, and alumni) call for an immediate severance of this inter-local agreement.
