Andrew,

I was notified by the General Manager yesterday morning and the employee will be terminated today.

Thank you,

Michael

Unbelievable! Thanks for handling the situation. I'll follow up with Aramark Administration tomorrow. Please ensure he is not permitted to enter the facility "Stop Order" until further notice and generate a Critical Incident Report. Thanks

ADD Rapelje - a kitchen worker reported to custody staff that he was ordered to serve cake that had evidence of rodents eaten from it. The Aramark employee allegedly ordered him to cut the sides of the cake off and serve it to the population. I'm heading into work now to assess the mood of the population and address any sanitation concerns.

Please call the facility, I would like to send Aramark employee Ellsworth home. I have attempted to contact his supervisors with no contact made.

Thanks,
Sgt. Livermore
